

Shared Facilities

18 C.F.R. §358.7 (e) (2) requires that a transmission provider post on its Internet website a complete list of the employee-staffed facilities shared by any of the transmission provider's transmission function employees and marketing function employees. The following is a complete list of the employee-staffed facilities:

Building

Corporate Headquarters
1415 Wyckoff Road
Wall, NJ 07719

Some Transmission Function Employees (TFE) of Adelphia reside in an office space in the corporate headquarters that is separate from the office space in the corporate headquarters of Marketing Function Employees (MFE). A key card is required to access the TFE area. No MFE employees have security card access to the TFE area. All visitors to the TFE area must be escorted by TFE personnel. There are shared common spaces, such as restrooms, cafeteria and gym in the building. The remaining TFE personnel are located in field locations of which no MFE has access. These remote facilities are secure via card key access.

Computer Systems

Adelphia's TFE and MFE share a wide area network as well as servers on which corporate support-related systems reside. These include human resources applications, financial enterprise system (which supports finance, accounting, planning and other corporate functions), email and calendars. Access to any Transmission function information on those shared resources is restricted by organizational roles and the use of access control such as user id's and passwords to ensure that MFE do not have access to Transmission Function information.

Adelphia's SCADA and EBB systems are not on shared servers. Access to those servers and systems are restricted by user ID and passwords.
